Product Label	Runnage / Weight	Length / Knot Strength	Description
 <p><b>GOLDEN BOY</b> 2 x 1350m EXTRA LENGTH BIG SQUARE 210kg KNOT STRENGTH</p>	135 Runnage  2 x 10kg Packs	2 x 1350m  210kg	<b>UniPak Golden Boy</b> Medium / Big Square twine delivers the efficiency of the 2700m extra length, coupled with 210kg knot strength. Golden Boy is best suited in 3x3 and 4x3 standard (non HD) applications, bringing you the best value-for-dollar twine on the market. The high visibility bright golden coloured twine has the same softness and minimal mechanical wear properties as its big brothers in the UniPak range.
 <p><b>GREEN MACHINE</b> 2 x 1200m HIGH TECH BIG SQUARE 245kg KNOT STRENGTH</p>	120 Runnage  2 x 10kg Packs	2 x 1200m  245kg	<b>UniPak Green Machine</b> Big Square twine is the biggest selling twine, with high tech performance of 245kg knot break strength. Out of Europe, this popular twine offers strength and good twists per metre, making it a round, uniform and soft twine to secure your bales.
 <p><b>TERRACOTTA WARRIOR</b> 2 x 1050m HIGH DENSITY BIG SQUARE 275kg KNOT STRENGTH</p>	105 Runnage  2 x 10kg Packs	2 x 1050m  275kg	<b>UniPak Terracotta Warrior</b> HD Big Square twine offers a solution for your HD machines. 275kg of knot strength sees the Terracotta Warrior suitable for the majority of HD applications, in a high visibility terracotta colour.
 <p><b>WHITE KNIGHT</b> 2 x 1000m ULTRA HD BIG SQUARE 300kg KNOT STRENGTH</p>	100 Runnage  2 x 10kg Packs	2 x 1000m  300kg	<b>UniPak White Knight</b> Ultra HD Big Square twine is specially designed for specialist Ultra HD machines and applications. When you're pushing your machines to bale in extreme and challenging conditions, the 300kg knot break strength gives you the back-up you need. The pure white coloured twine is available in 10kg spools, suitable for all machines.
 <p><b>BALE MASTER</b> 2 x 950m X ULTRA HD BIG SQUARE 320kg EXTREME KNOT STRENGTH</p>	95 Runnage  2 x 10kg Packs	2 x 950m  320kg	<b>UniPak Bale Master</b> Specially formulated twine for Extra Ultra HD applications, such as extreme straw baling in difficult circumstances, Bale Master provides a solution to knot slippage when using extreme density/high speed machines such as Krone and Claas machines. The premium twine is highly visible (orange) and supplies 320kg knot strength.
 <p><b>BLUE RIBBON</b> 2 x 2250m SMOOTH GRIP SMALL SQUARE 80kg KNOT STRENGTH</p>	350 Runnage  2 x 6.43kg Packs	2 x 2250m  80kg	<b>UniPak Blue Ribbon</b> Small Square twine is in a user-friendly 4500m twin pack to give you a compromise of long runnage and strength. Made from high grade polymers, it holds 80kg knots in a high visibility blue.
 <p><b>ROUND BALE</b> 2 x 4250m SMOOTH FLOW ROUND BALE 70kg LINEAR STRENGTH</p>	850 Runnage  2 x 5kg Packs	2 x 4250m  70kg L/S	<b>UniPak Round Bale</b> Manufactured for easy running to feed onto round bales, Round Bale is supplied in a 8500m light blue twin pack. Manufactured in Europe to ensure good quality application.
