

MAXI-ULTRA HD2370

HIGH QUALITY EUROPEAN-MADE BALER TWINE

- ✓ UV Stabilised
- ✓ Excellent Knotting
- ✓ Uniform Twisting
- ✓ Mechanically Fibrillated
- ✓ Manufactured with Advanced Polymers
- ✓ Soft on knotters

Introducing **Maxi-Ultra HD2370**, the new high-tech European baler twine added to the stable of **UniPak** twines.

A specific twine which application suits extreme Ultra High Density baling, such as with the Massey UHD 2370.

The highly visible orange-coloured premium twine delivers an incredible 340kg knot strength to cater for the harsh application that it's intended for. And the extra length of an 11kg spool means fewer changes and more efficient usage.

Maxi-Ultra HD2370 combines well-crafted European manufacturing with great value for your dollar.

Runnage	Pack	Length / Knot Strength
85 Runnage	2 x 11kg	2 x 935m / 340kg
